Plaintiff)	
vs.)	DEFENDANT BNSF RAILWAY
)	CO.'S PRELIMINARY PRETRIAL
BNSF RAILWAY CO., a Delaware)	STATEMENT
corporation,)	
)	
Defendant)	
)	

Defendant, BNSF RAILWAY CO. ("BNSF"), by and through its attorneys of record, Knight Nicaastro McKay, LLC, pursuant to L.R. 16.2(b)(1) and in accordance with the Court's Orders dated October 23, 2019 (DOC. #19), hereby submits its Preliminary Pretrial Statement as follows:

A. FACTUAL OUTLINE OF THE CASE

On August 22, 2016, the train Plaintiff was working on struck a tree that had fallen across the tracks near mile post 178. Supervisors for BNSF responded to the accident. Plaintiff acknowledged that she was not injured and did not need medical attention. Later Plaintiff submitted a personal injury report. Upon information and belief, Plaintiff had medical treatment following the accident; however, full medical records have not been provided. In August of 2016, Plaintiff was terminated due to a rules violation investigation that predated the accident. Her employment was reinstated February of 2019. Upon information and belief, she is working full time as a conductor for BNSF with no work restrictions.

B. BASIS FOR FEDERAL JURISDICTION AND VENUE IN THIS DIVISION

The Court has jurisdiction over this matter pursuant to the Federal Employers' Liability Act ("FELA"), 45 U.S.C. § 51 *et seq.* Venue is appropriate under 28 U.S.C. § 1391(b) and L.R. 3.2.

C & D. FACTUAL BASIS AND LEGAL THEORY UNDERLYING DEFENSES

To succeed on a FELA claim, a plaintiff must "prove the traditional common law elements of negligence: duty, breach, foreseeability, and causation." *Adams v. CSX Transp., Inc.*, 899 F.2d 536, 539 (6th Cir. 1990). Plaintiff additionally claims

that BNSF violated 49 C.F.R. § 213.37, which governs the control of vegetation on railroad property. This regulation does not apply to the facts of this case.

As to affirmative defense, the defense of preemption or preclusion applies as Plaintiff makes more specific claims and allegations during the litigation. Plaintiff's complaint contains at least one allegation that is preempted/precluded, which is subsection (e).

Negligence and contributory negligence is a statutory defense that may apply depending on Plaintiff's acts and omissions as it relates to more specific allegations disclosed during litigation.

Non-party or third-party actions are raised to preserve the defense upon review of complete records in the sole possession and control of the Plaintiff. The defense is raised at this point based on allegations raised by Plaintiff in pleadings in another case regarding non-party involvement in the tree.

Plaintiff was not working for BNSF at the time medical treatment occurred and the defense is raised to preserve it upon the review of complete records in the sole possession and control of the Plaintiff.

Plaintiff has preexisting medical conditions and treatment for at least one body part claimed in this lawsuit.

Plaintiff's claims should be reduced by a failure to mitigate to the extent Plaintiff's past wage claim includes time for which Plaintiff was not employed.

Affirmative defense 9 and 10 are defenses that would apply in the event of a judgment in the matter.

Affirmative defense 11 was raised based on various medical leaves noted on Plaintiff's employee transcript; however, if there are no releases at issue for any of the claimed conditions then the defense would not apply. Defendant will inquire during discovery.

Affirmative defense 12 is a causation defense raised initially due to past medical treatment for the same body part claimed in this lawsuit.

Affirmative defense 13 is a defense regarding environmental events that occur for which would constitute no negligence on the part of BNSF.

E. COMPUTATION OF DAMAGES

Plaintiff has listed several categories of claimed damages in her initial disclosures with unspecified total amounts.

F. PENDENCY OR DISPOSITION OF ANY RELATED LITIGATION

BNSF engineer Scott Weber filed a lawsuit *Weber v. BNSF*, DV 17-1668 (13th Judicial District, Judge Knisely). The issue presented in the Motion for Summary Judgment in that matter was plaintiff's failure to identify an expert witness in that

case. The Court has yet to rule on Defendant's Motion to Compel in that matter involving the identity and circumstances surrounding plaintiff obtaining ESI from BNSF. The Court did rule on the Motion to Revoke Pro Hac Status; however, that ruling was based on an in-camera review of an affidavit submitted by plaintiff's paralegal. The Court has not permitted Defendant to know what was stated in that affidavit. However, during oral argument the Court questioned the merits of plaintiff invoking privilege to how they obtained the information in the first place.

G. PROPOSED STIPULATIONS OF FACT AND UNDERSTANDING AS TO WHAT LAW APPLIES

See the Joint Stipulation of Facts filed by Plaintiff. Federal law applies.

H. PROPOSED DEADLINES RELATING TO JOINDER OF PARTIES OR AMENDMENT OF PLEADINGS

Pursuant to the Joint Discovery Plan, the parties propose that joinder of additional parties or amendment of pleadings may be done as a matter of right up to January 31, 2020.

I. IDENTIFICATION OF CONTROLLING ISSUES OF LAW SUITABLE FOR PRETRIAL DISPOSITION

BNSF contends that 49 C.F.R. § 213.37, which sets standards for vegetation on railroad property, does not apply to the facts of this case. Likewise, Plaintiff's claim regarding locomotive design is preempted.

J. PERSONS BELIEVED TO HAVE INFORMATION THAT MAY BE USED TO PROVE OR DENY A CLAIM OR DEFENSE

At this time, BNSF has identifies the following individuals, which are also listed in BNSF's Initial Disclosures:
